

GUIDELINES FOR TAKING ROUTINE INSPECTION PICTURES IN eMARG

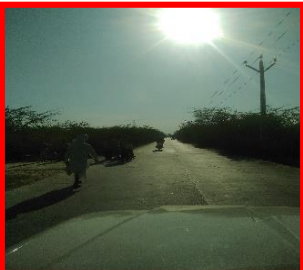

Do not click pictures in the dark or low lighting conditions.

✗
Don't

Ensure that the pictures are clicked in landscape mode. Take extra caution not to flip or rotate the pictures.

✗
Don't

Do not click pictures from inside a vehicle or when on it, as it might subject them to blurring, glare etc.

✗
Don't

Pictures should not be blurred, have glares due to the sun or other camera related defects.

✗
Don't

Do not click pictures with vehicles, pedestrians, animals or other objects on the road so as to not hide any part of the road.
